

Linea Max HE

Floor standing high efficiency combi boiler

SEDBUK 'B' RATED

60 LITRE BUILT IN TANK

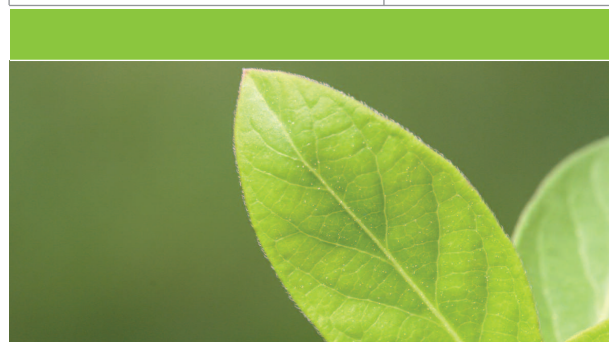

IDEAL FOR LARGE HOMES

Linea Max HE

Floor standing high efficiency combi boiler

SPECIFICATIONS	Linea Max HE
Central Heating	
Heat input (kW)	29
Maximum heat output @ 80°C/60°C (kW)	28.1
Maximum heat output @ 50°C/30°C (kW)	30.2
Domestic Hot Water	
Heat input (kW)	29
Flow rate - 35 °C rise (l/min)	18*
Flue Details (concentric)	
Maximum horizontal flue length (60/100mm)	2.0m
Maximum vertical flue length (60/100mm)	3.0m
Flue Details (twin pipes)	
Horizontal or vertical (80+80mm)	12m + 12m
Weight	
Dry weight (kg)	91
Dimensions	
Height (mm)	850
Width (mm)	600
Depth (mm)	585

LINEA MAX HE CONTROL PANEL

* Until thermal store depleted (or recovery to full performance in approximately 5 minutes)

** The appliance flue elbow on the Linea Max cannot be used with a vertical flue application and should be discarded.

SEDBUK 'B' rated.

High domestic hot water flow rate makes Linea Max HE ideal for larger homes.

55% more flow rate than a combi of an equivalent output.

An integrated 60 litre thermal store boosts domestic hot water delivery to 18 litre/min.

Anti-cycling control prevents wasteful on/off cycling of the boiler, eliminating unnecessary wear and tear.

The self-start programme protects the pump and motorised valve from sticking during long periods of inactivity.

Linea Max HE can be flued horizontally or vertically using Vokèra's concentric or twin flue systems making the boiler extremely versatile.

Linea Max HE reduces running costs by up to 35% more than a conventional boiler, helping to safeguard the environment.

Built-in frost protection, protects the appliance from damage during periods of cold weather.

Plated heat exchanger reduces the risk of scaling and comes with 5-year anti-scale warranty.

Intuitive control panel for simple operation.
