SEDBUK 'A' rated.

Compact dimensions enable a flexible installation with the boiler able to be sited almost anywhere in the home.

Reduces running costs by up to 35% more than a conventional boiler, helping to safeguard the environment.

Optional mechanical clock and pipe cover are available to buy as a kit, providing a more cost effective package.

Anti-cycling control prevents energy wasteful on/off cycling and reduces wear and tear.

Low-NOx - highest class-5 performance.

Built-in frost protection, protects the appliance from damage during periods of cold weather.

Can be converted to LPG with LPG Kit.

Attach the RF wireless programmable room thermostat* to maximise efficiency and maintain optimum room temperature.

Individual heating and hot water controls ensure a simple operation of the appliance.

Hot water survivor function:- If the hot water thermistor fails it will use the primary thermistor to provide hot water at 55°C to ensure a supply of warm water is available.

Adding a Vokèra energy saving control to the Vokèra Compact A can increase the boilers efficiency by a further 10% so ask your installer about the range of Vokèra energy saving controls.
